Bonjour!

Je m'appelle Sally Chamberlin, and I am pleased to offer French classes to children ages 4 and up. I have recently moved back to the states after living in France for many years and I am excited to share my linguistic and cultural knowledge with your child.

Research shows that children between the ages of 2-8 have certain pathways in their brain which remain open for language acquisition. During this period, children are sponges for new language and have the potential to acquire foreign languages very quickly.

Through repetition, consistency, and experience-based learning, my goal is to foster in your child a love of learning French that will lead him/her to be multi-lingual later in life.

French Classes

Ages: 4 and up

Days: Mondays and Wednesdays

\$50 per month

Two 45-minute classes per week.

Taught by Sally Chamberlin, a directress in the Redwood room. In addition to her Bachelor's degree in French and Education from Principia College, Sally has over 8 years of experience in teaching foreign languages to children. The class is taught using an immersion approach, meaning your child will be spoken to entirely in French for 45 minutes. Through songs, stories, games, art, and many collaborative activities, your child will not only learn basic French but also gain a better understanding of French-speaking cultures and traditions around the world. For more information, or to enroll your child email Sally at sally@cvmontessori.org.
